

INTEGRA

INTEGRA: Innovative Laboratory Tools

INTEGRA is a leading provider of high-quality laboratory tools for liquid handling, media preparation, sterilization and cell cultivation. We are committed to creating innovative solutions which fulfill the needs of our customers in research, diagnostics and quality control within the life science markets and medical industry.

The INTEGRA Biosciences group, comprising INTEGRA Biosciences AG and VIAFLO Corporation, maintains a worldwide network of over 90 independent, highly trained, distribution partners. INTEGRA Biosciences AG is headquartered in Zizers, Switzerland, VIAFLO Corporation is located in Hudson, NH, USA.

Within the last 2 years, INTEGRA has introduced many new innovative products. With years of profound experience in sales, marketing, engineering and manufacturing, INTEGRA will continue to maintain close cooperation with customers worldwide to further provide cutting edge technologies with a focus in liquid handling solutions.

INTEGRA products have achieved outstanding reputation worldwide. These include well-known benchmark products, such as the PIPETBOY, VACUSAFE and DOSE IT liquid handling tools, MEDIACLAVE and MEDIAJET media preparation equipment as well as the FIREBOY and FLAMEBOY safety Bunsen burners. By forming the INTEGRA group in July 2009, the product range had been extended by the complete VIAFLO product line of new and innovative liquid handling instruments and disposable plasticware. These products include VIAFLO electronic pipettes, VOYAGER electronic adjustable spacing pipettes, VIAFLO GripTips and reagent reservoirs.
